MEETING OBJECTIVES

The Monitoring Committee (MC) will review previously implemented 2023 commercial and recreational Annual Catch Limits (ACLs), Annual Catch Targets (ACTs), commercial quotas, and recreational harvest limits (RHLs) for summer flounder, scup, and black sea bass and recommend changes as appropriate. In addition, the MC should review commercial management measures for all three species and recommend changes if needed. During this meeting, the MC will consider recent fishery performance as well as recommendations from the Advisory Panel, Scientific and Statistical Committee, and Council staff.

DRAFT AGENDA

Times are approximate and may change based on pace of discussion. Public comment will be allowed at designated times at the discretion of Council and Commission staff.

<p>9:00 am - 9:15 am</p>	<p>Meeting Objectives and Considerations for 2023 Specifications</p> <ul style="list-style-type: none"> • Review meeting objectives • Data availability considerations • Overview of outcomes of recent commercial/recreational allocation amendment and implications for MC recommendations • Update on Harvest Control Rule final action and implications for 2023 recreational measures (to be discussed in more detail during fall 2022 MC meeting)
